CEDARBRIDGE LEARNING

Online STEM tutoring, thoughtfully tailored. | FALL 2026 | FICTIONAL STUDENT PROJECT

Who we are

CedarBridge Learning is a fictional tutoring studio based in Lebanon and founded in 2024. We help Grades 7–12 learners build confidence in STEM through accessible, bilingual online instruction.

Our mission

To make Mathematics, Physics, and introductory coding feel approachable through patient teaching, clear learning goals, and consistent progress tracking.

What makes us different

Our approach includes a free 20-minute introductory consultation (not a tutoring lesson), individually tailored tutor matching, and a written progress note after every four completed paid sessions. We do not guarantee specific grades or exam results.

What we teach

Subjects: Mathematics, Physics, and beginner Python programming for Grades 7–12; Mathematics and Physics exam preparation for Lebanese-school programs. Languages: English and Arabic. Format: live Zoom sessions, online only.

Not offered: Chemistry, university-level courses, or in-person sessions. There is no walk-in physical tutoring center.

Our fictional team

Lina Daher, Co-founder & Academic Director: creates learning plans and coordinates teaching quality.

Karim Mansour, Co-founder & Operations Lead: coordinates inquiries, schedule requests, and student communication.

CEDARBRIDGE LEARNING

PRICING, POLICIES AND CUSTOMER INFORMATION | FICTIONAL STUDENT PROJECT

Pricing and session length

Service	Price
Individual online lesson (60 minutes)	USD 25
Small-group lesson (60 minutes, 3–5 learners)	USD 15 per student
Four individual lessons (4 × 60 minutes)	USD 90 total
Introductory consultation (20 minutes; not a lesson)	Free

All listed prices are in USD. No extra discounts or tax details are specified.

Hours, scheduling, and cancellations

Service hours: Monday–Saturday, 10:00–19:00 Beirut local time. Sunday: closed. Prospective students should ideally request a session at least 24 hours in advance. Requests are subject to human confirmation; the chatbot cannot make a confirmed booking.

Rescheduling: confirmed lessons may be rescheduled without a fee when requested at least 24 hours beforehand. Late cancellations normally forfeit the affected session. If CedarBridge cancels a lesson, the learner may receive a reschedule or refund for that lesson. Other refunds require human review.

How to contact the team

For a fictional inquiry, write to hello@cedarbridge.example, or give the chatbot your name, email, and tutoring needs with explicit consent to save those details for follow-up. The .example address does not receive real mail.

Data handling in this teaching demonstration

With permission, the chatbot saves inquiries locally to logs/leads.jsonl. Unanswered questions and feedback are saved to logs/feedback.jsonl. These logs are not automatically delivered to real employees or external services. The bot cannot take payments, issue refunds, or book confirmed sessions.

Common questions

Do you offer sessions on Sundays? No. Service hours are Monday–Saturday, 10:00–19:00 Beirut local time.

Do you teach Chemistry or university courses? No. We teach Mathematics, Physics, and beginner Python for Grades 7–12.

Can I book a lesson immediately in chat? No. The bot can save a request with consent, but a human must confirm scheduling.

What if I cancel less than 24 hours beforehand? The session is normally forfeited. A human reviews special refund requests.

Do you teach in Arabic? Yes. Sessions are available in either Arabic or English.
